COLLINSON INSURANCE BROKERS LTD SELECTS RDT TO SUPPORT ITS UK & WORLDWIDE GROWTH PLANS

Collinson Insurance Brokers Ltd (Collinson) has entered into a long term strategic partnership with RDT to support its business development goals in the UK and worldwide.

Following extensive market research, Collinson selected the full life cycle insurance administration solution Landscape from RDT to support broking, wholesale distribution and administration of multiple personal lines insurance products through its affinity partnerships.

Landscape will underpin all business operations for the Lloyd's broker from policy inception to claims handling, including midterm adjustments and renewals. Offering full transactional capabilities, it will also support the range of payment options Collinson provides to its customers. The comprehensive management information available through the solution means underwriters will have absolute confidence in Collinson's robust accounting and reporting process.

David Evans, Managing Director at Collinson Insurance Brokers explains:

"Landscape is streets ahead of the other technology platforms we reviewed as part of this exercise. The flexibility and agility of the solution will bring us real competitive edge, enabling us to rapidly develop and deploy bespoke solutions for our expanding markets. The ability to streamline our existing and future business processes as we grow will see us realising significant business efficiencies and cost savings and liberate our staff to deliver service which continues to differentiate our business."

RDT Chief Executive Mark Bates comments:

"Collinson Insurance Brokers is a dynamic, fast growing business alive to the bottom line and customer service benefits achieved by harnessing innovative technology. We look forward to a long, collaborative partnership and delivering rich operational functionality through Landscape which can evolve to facilitate and power the company's growth goals."

For further information about Collinson Insurance Brokers' selection of RDT's Landscape solution, please contact Sales and Marketing Director Debbie Baker at

Editor's Notes

About RDT

Founded in 1991, RDT has a wealth of experience in developing automated administration solutions for the insurance market, commencing with a Unix-based general insurance system for a Lloyd's motor syndicate followed by the first UK on-line website with real time credit card transactions in 1995. RDT's core insurance administration solution is now based on the Microsoft platform and has evolved in line with the dynamics of the insurance market. It is branded Landscape.

Developed on the .NET platform, Landscape is a complete end to end insurance administration system which automates back office administrative processes, reducing customer service turnaround time and supporting all business operations from product rating and design, through to policy issuance, claims handling, channel management and billing. Complete support for full cycle EDI and bordereaux import/export are also available. The solution supports both personal and commercial lines of business and is able to support trade in multi-jurisdictions. With its Landscape suite of products RDT is well placed to meet the needs of innovative insurance carriers looking for a variety of electronic placement methods and a desire to utilise the Internet to full advantage. RDT works with a range of leading insurers including ARB (Ireland), Carraig Insurance (Gibraltar), Eldon Insurance, Ensign, Equity Insurance Group, KGM, Highway, Markerstudy, Provident Insurance, Sterling Insurance, Towergate Insurance Group.
